

International Workcamp
Büchel is everywhere
Global Zero Now

BÜCHEL IST ÜBERALL!
atomwaffenfrei.
jetzt

From July 25th to August 10th, the International Fellowship of Reconciliation -German Branch and Friedenswerkstatt Mutlangen invite young people between 18 and 26 years to an international work camp. It starts in the capital Berlin and ends at the nuclear deployment site Büchel. With street theater and art actions the work camp accompanies a fast campaign for a world without nuclear weapons.

Theory: The participants will receive information about nuclear weapons, ongoing nuclear armament programs and efforts to disarmament and the ban of nuclear weapons. We are preparing for talks in the embassies of the nuclear weapon states and the countries in which nuclear weapons are stationed. We will exchange information about our own experiences of non-violent forms of action.

Action: We agree and prepare the actions and practice them and the conversations in the embassies. Participation in the fasting is voluntary. In the actions also people of the local peace movement will take part.

Leisure: The participants visit attractions in Berlin and in the second part of the Mosel.

Accommodation: We sleep in tents. They are situated in Berlin in the garden of a church and in Büchel in a meadow near the air base, where the nuclear weapons are stationed. Sleeping pad and sleeping bag to be brought. We prepare together vegetarian food.

Languages: English and German

Cost: The registration becomes effective by paying a fee of € 50.00. In addition, the participants have to bear their own costs for the journey to Berlin and the journey home. Who is not able to afford it, receives help in finding sponsors who provide support with travel expenses.

Management: The team consists of the Chairmen of the Fellowship of Reconciliation and the Friedenswerkstatt, Matthias W. Engelke and Wolfgang Schlupp-Hauck, and two young people who may be older than 26 years.

Welcome:

Participants from the nuclear weapon states and the countries in which nuclear weapons are stationed, we are particularly pleased. And the same about people who are willing as sponsor to contribute to the travel costs of a Work Camper.

Overall, 15 to 20 participants.

Interested to be a teamer, please sign up already until 15 May 2016th.

Registration: possible until 1 July
